

Zeyad Mohamed Emam Mahmoud

Full Stack Web Developer

Cairo, Egypt | +20 102 686 4218 | ziadayoub2005@gmail.com | github.com/ziadayoub2005-code | linkedin.com/in/zeyad-mohamed11

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Computer Science student with hands-on experience building scalable web applications using Laravel, PHP, React.js, Node.js, and MongoDB. Delivered a restaurant management system that reduced order processing time by 40% and improved page load speed by 30% through MySQL indexing and query optimisation. Proficient in RESTful API design, Angular.js, Oracle DB, Python, and modern frontend frameworks including Tailwind CSS and Bootstrap. Strong problem-solving and organisational skills; thrives in Agile team environments. Seeking a junior Full Stack Developer role to contribute to forward-thinking software teams.

EDUCATION

Bachelor of Science in Computer Science

Expected 2026

Cairo, Egypt

Relevant coursework: Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Software Engineering, Computer Networks, Web Development.

WORK EXPERIENCE

Full Stack PHP Laravel Developer — Intern

2024

National Telecommunication Institute (NTI), Benha, Egypt

- Built and deployed 3 RESTful APIs using Laravel with structured routing, middleware, and resource controllers, cutting API response time by 25%.
- Implemented secure authentication systems (session-based and token-based via Sanctum) for a team capstone project used by 5+ developers.
- Designed normalised relational database schemas in MySQL and Oracle DB with Eloquent ORM, reducing redundant queries by 20%.
- Wrote Python utility scripts to automate data migration tasks, saving approximately 5 hours of manual work per sprint.
- Applied MVC architecture across all modules, improving codebase maintainability and enabling 30% faster feature delivery.
- Collaborated on a team capstone project using Git & GitHub feature-branch workflow, resolving merge conflicts and delivering on schedule.
- Integrated Angular.js and React.js frontend components with Laravel Blade templates, boosting UI responsiveness.

PROJECTS

Restaurant Menu Management System

2024

HTML, CSS, JavaScript, PHP, MySQL

- Engineered a full-stack restaurant platform managing menus, orders, and table assignments for 50+ menu items and multiple concurrent users.
- Developed a dynamic CRUD menu module with real-time updates, reducing staff data-entry time by 35%.
- Built a session-based cart system with order tracking that decreased checkout errors by 40% compared to the previous manual process.
- Designed a table-assignment module that improved seating-availability visibility and cut double-booking incidents to zero.
- Added full RTL/Arabic language support with bilingual layout switching, increasing accessibility for Arabic-speaking staff.
- Optimised MySQL queries and applied indexing strategies, achieving a 30% improvement in average page load time.
- Delivered a fully responsive UI using CSS Flexbox and Grid, ensuring seamless experience across mobile, tablet, and desktop.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js, Angular.js

Backend: PHP, Laravel, Node.js

Database: MySQL, MongoDB, Oracle DB, Firebase

Languages: Python, PHP, JavaScript

Tools: Git, GitHub, Figma, VS Code

Soft Skills: Problem Solving, Organisational Skills, RESTful API Design, Agile / Team Collaboration, Clean Code & Best Practices

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Professional Working Proficiency)

Core Competencies: Problem Solving & Debugging, Organisational Skills, RESTful API Design, Agile / Team Collaboration, Responsive UI Development, Clean Code & Best Practices, Version Control (Git & GitHub)
